Dear Harold,

thanks for the note & enclosures of 7/9/93. As you could forsee, most likely, I found them fairly upsetting — the RFK position in the Congressional Record, the Harrison Livingstone business from your letter to Kent Carroll. I am not grounded in research, or even ordinary logic (I'm an intuitive kinda guy) so could not resolve for myself the factual matters. Nor have I read Mr. Livingstone's book(s). But I did begin to grasp the rather disillusioning situation.

I assume that you are dealing with these matters in your, or one of your, new books..

Bob Callahan's book ("Who Shot JFK?") will not be released til November, so the potential influx of material has not begun to come to me. Nothing to report, at my end.
